1. Check box contents.
2. After marking door inside face for device location (Device Instructions), transfer "Vertical Reference Centerline" from inside to outside door face. Follow steps 2a and 2b, at right.
3. Transfer "Horizontal Reference Centerline" from inside to outside door face.
4. Orient and align trim template, attach with tape to outside door face.
5. Spot holes and prepare door for trim.
6. Adjust trim for door thickness (as required).
7. Mount trim to door thru holes "B" with (2) #10-32 x 2" PTHMS supplied as shown in **Fig. 1**.
Note: If installing dummy trim, continue as shown in device instructions.

8. If required, cut trim tailpiece as shown in **Fig. 2**. Seat device so that the trim tailpiece penetrates cam slot as shown in **Fig. 1**. Thru mount device to trim thru holes "A" as shown in **Fig. 1** using 1/4-20 PPHMS supplied with device.
9. Continue as shown in device instructions.

2a. MEASURE INSIDE LINE LOCATION.

2b. TRANSFER DIMENSION TO OUTSIDE FACE

Figure 1

Device is bolted to trim using holes "A" (closest to door look edge)

(2) Screws and washers bolt trim to door using holes "B"

LHR Door Shown

Figure 2: Tailpiece Sizing

Installation Instructions - RHR Shown*

* - Trim Assembly shipped non-handed, rotate assembly 180° for use with LHR application.

Tailpiece

For thick door applications use 60-1500-1819-059 (Ordered Separately) secure with pin

(2) #10-32 x 2" Truss Machine Screws

Standard Cylinder

Each 441F and 446F Standard Trim is supplied with one 1802 6-pin random keyed cylinder, and (2) keys. This lever can fit any 6-pin (1802, 5802) cylinder.

To re-key or exchange any of these cylinders, follow steps 3a or 3b shown below.

Figure 3a. Lever Handle Removable

1. Insert Key & rotate clockwise 45°
2. Depress retainer with tool supplied.
3. Slide Lever off trim.
(Reverse steps to re-assemble.)

Figure 3b. Interchangeable Core Cylinders

Trim levers are specific for the cylinder core used. Levers are not removable. To remove and install the cylinder use the control key supplied with the cylinder.

LFIC, lever for 6-pin cores, 1210 and 5210.

SFIC, lever for 6- or 7-pin cores

Adjust lock for door thickness (If necessary)

(Lock is packaged preadjusted for 1-3/4" (44 mm) thick doors.)

To adjust for a thicker door.

1. Remove (2) screws from outside rose plate.
2. Slide outside rose away from lock body.
3. Adjust rose plate to desired door thickness per illustration below.
4. Fasten outside rose to lock body with (2) screws.

Outside Door Face Trim Template

TRIM	HOLES
441F, 446F, 448F, 449F	A, B, C
For Holes Marked "X" See Below	
Metal Doors:	
Inside Face	5/16" (8) Dia.
Outside Face	1/2" (13) Dia.
Wood Doors: 1/2" (13) Dia Thru	

CAUTION:

Office copiers and facsimile machines may change the size of a drawing and make the template inaccurate to use as a door marker. If this is not the original template packed with the trim, use only the holes on the door (do not use template as a door marker).

Dimensions given in inches (mm)
