FUNCTIONS

CRCODE202

Latch bolt operated by lever from either side, except outside has to enter a pre-programmed code on the keypad in order to retract the latch upon turning the lever.

Default Function: Storeroom
Optional Function: Passage Mode
Door Thickness: 1 3/8" - 2 1/4"

CRCODE203

Latch bolt operated by lever from either side by entering a pre-programmed code on the keypad in order to retract the latch upon turning the lever. Both lever always locked, unless one or both sides are set to passage mode. If one side is set to passage, function can be storeroom. If both sides are set to code-free, function becomes passage.

Default Function: Institution
Optional Functions: Storeroom, Passage Mode
Door Thickness: 1 3/8" - 1 3/4"

CRCODE204

Operated by lever from outside and when push pad is depressed, except outside has to enter a pre-programmed code on the keypad in order to retract the latch upon turning the lever. For use with 2200, 6600, 7700 and 9800 Series Rim and Surface Vertical Rods.

Universal Trim
Default Function: Storeroom
Optional Function: Passage Mode
Door Thickness: 1 3/4" - 2"

FEATURES

✓ SINGLE CODE USER

Only one code combination chosen from thousands of combinations can be set at a time to deter code breakers. Code length is from 1 to 12 digits, and can be permuted with a non-repeating digit up to over 5000 combinations.

✓ EASY ON-DOOR CODE CHANGE

Code can be changed without removing the lock from the door and using only a "code change" key.

✓ 1-12 DIGIT CODE

An entry code can be a combination of 1 to 12 digits long. The digits can be entered in any order. For example, if the chosen 6-digit code is "5283XZ" it can be entered as "ZX3825" or "3X8Z25" or in any other combination of the 6-digit code.

✓ BREAKAWAY LEVER DESIGN

Lever will stay at the 5 o'clock position when forced down without retracting the latch, to prevent breaking of handle and giving the impression of the handle being broken to discourage or scare off vandals.

✓ CODE-FREE OPTION (PASSAGE MODE)

Once enabled, the lock remains unlocked until disable PASSAGE MODE is initiated. (For CRCODE203, inside and outside locks must be set)

✓ WEATHER RESISTANT

Can resist above or below normal weather conditions without compromising security.

✓ NON-HANDED

Easily field reversible handing.
