

ARCHITECTURAL HINGES

PIVOT HINGE

Pivot sets are designed to work with the laws of physics to provide long-lasting performance and reliability. Offset pivots provide better weight distribution and can accommodate taller doors

The weight of the door is supported at the bottom by the floor

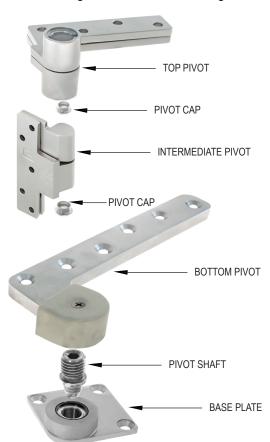

- Uses principles of gravity to its advantage
- ▶ Door swings with less resistance
- Heavier doors can be accommodated

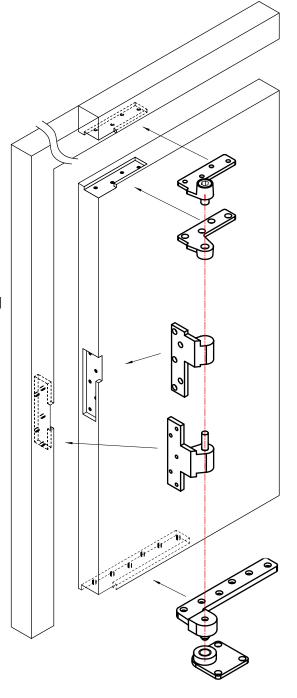

Reduced stress on frame

- ► Fasteners are in shear, not tension
- Eliminates door sag
- Vertically adjustable

Heavy duty hardened steel spindles

- Thrust bearing supports vertical load
- Needle bearings and bushings for lateral force
- Extra heavy-duty models also have an additional surface applied thrust bearing to handle heavier or high-traffic doors

INSTALLATION DIAGRAM

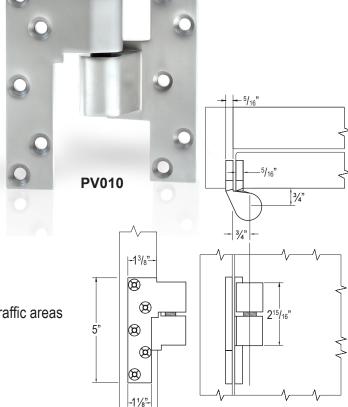

ARCHITECTURAL HINGES

INTERMEDIATE PIVOT

MAIN FEATURES

- Heavy Duty Full Mortise
- ▶ Handed
- Maintains door alignment
- ► Aids in installing floor closer and bottom pivots
- ► Stainless Steel material with high corrosion resistance
- ▶ Door thickness minimum 1 ¾"
- ► Maximum door load: 600 pounds
- ► Vertical adjustment ³/₁₆" include positive locking

ELECTRIFICATION

- ► For medium and heavy wood and metal doors in high traffic areas
- ► 4 wires, 26 gauge
- Can be used on exterior and interior doors
- Can be used with top and bottom pivots
- ▶ Handed
- Not load bearing
- ► Maintains door alignment and aids in installing bottom pivots
- ▶ Doors 60" to 90" in height should use one intermediate pivot
- ► Each additional 30" warrants another intermediate pivot
- Vertical adjustment up to 3/16"
- ► Fasteners: 8 pcs wood screws and 8 pcs. machine screws

ITEM#	SIZE	OFFSET	THICKNESS
ELEPV010-RH	5" x 4 ¼"	3/,"	⁵ / ₁₆ "
ELEPV010-LH	5" x 4 ¼"	3/"	5/ ₁₆ "

ARCHITECTURAL HINGES

TOP AND BOTTOM OFFSET PIVOT SET PV001

MAIN FEATURES

- ► Full Mortise
- Non-Handed
- → ¾" Offset pivot
- Standard top pivot for most offset pivot sets and floor closers
- ► Use with 1 ¾" door minimum thickness with 1/8" bevel in 2"
- Maximum door load: 600 pounds
- Vertical adjustment range 3/16"
- Stainless Steel material with high corrosion resistance
- ► Top and bottom pivot is sold as set
