

VALUE SERIES®

OUTSIDE PULL & PLATE TRIM DESIGNS

Assorted outside trims provide security for all types of installations. Built to be as durable as the panic devices, these heavy-duty trims will stand up to heavy use and abuse. The versatile design of the trims, combined with the device mounting plate, makes changing functions as simple as replacing the outside trim. This can easily be done without removing the exit device from the door. These trims can be used on V40 Series Rim and V50 Series Surface Vertical Rods. Detex uses the BHMA functions/descriptions for all trims.

03 function trims include cylinder bracket kit with spring loaded tailpiece that self-adjusts to door thickness.

A and AN TRIM

S Pull Standard

NOTE: 02A/02AN available in 689 693, or 695 finishes
