

KA Series Armor Plates

Trimco's Protection Plates are offered with many value-added standard features, as well as custom options to meet job specifications. Trimco's Protection Plates are manufactured in the USA from stainless steel, bronze or brass and include pencil bevel on all four edges standard. Other options include heavy bevel, countersinking, UL labeling and custom cutouts. Multiple material options create an offering that is flexible for most any application. Damage resistant packaging separates fasteners and ensures Trimco's Protection Plates arrive at the jobsite in good condition.
